Members of Our Community:

*Since we published the inaugural edition of this directory in June 2017, we have received many, many requests from local businesses and resources asking to be a part of future editions of the directory. With that in mind, we are proud to present to you the second edition of the **Bloomington-Normal Area LGBTQIA+ Business and Resource Directory**.*

This second edition features nearly 30 additional members who have pledged to provide an inclusive, welcoming environment and to serve our community fairly and equitably. Their commitment is consistent with our mission: to make the Bloomington/Normal area a safer, more progressive place where we can live openly and authentically as ourselves.

Each of these members has agreed to display a special static cling rainbow decal at their entrance and/or on their online web site. This identifier will help customers and clients easily identify our supportive businesses, organizations, and resources.

As the number of members increases we will release new editions of the directory. In the meantime, please consider patronizing the businesses and supporting the organizations and resources who support us!

I can think of no more critical elements of a progressive community's character than — to borrow from PPC's mission statement — "compassion and understanding among all peoples. . . mutual respect regardless of sexual orientation, creed, race, gender, gender identity, or physical ability through outreach and education."

The Town of Normal has recently approved its Vision 2040 process, producing a document that will guide our comprehensive planning for the next 25 years and beyond. One of the pillars of that vision is contained in the following:

"Residents of our community will have the opportunity to thrive and be part of a growing economy regardless of their race, gender, religion, sexual orientation, or physical ability. We will see economic development as an inclusive effort with diverse strategies designed to bring prosperity to all segments of the population."

If we can simply keep our eye on that vision as we move forward, Normal and Bloomington can maintain and improve our communities' commitment to being safe and welcoming for everyone.

Now, that said, as public representatives, policymakers for municipalities must have grassroots support for their policy decisions. I believe our community to be a welcoming, respectful, and inclusive place at the grassroots level. To preserve that environment, it is essential that all of us support and patronize the businesses and organizations in this directory, because their success remains a reflection of those principles for which we stand, together.

Chris Koos
Mayor, Town of Normal

I am deeply honored to be part of the Prairie Pride Coalition and its mission to promote "compassion and understanding among all peoples."

It is essential that elected officials stand firm and embrace our differences and commitment to inclusiveness in our progressive and welcoming community. This effort is one that appeals to the best part of human beings.

It is especially critical at this time in our nation's history, when some leaders are attempting to divide by appealing to the worst part of humanity — our fears and prejudices.

Our community's increasing diversity is, perhaps, its greatest strength.

Tari Renner
Mayor, City of Bloomington
